Turkish Delight

Having followed your adventures for the last few years
Paragraph working as title song, reached apogee many pages back
Ensnared suitor, ostracized again
Shiver of fear now felt, beauty & wit wiped free, conflict is revealed
CHARACTER SKEPTICAL \{53\rightarrow 681\}
Imagined it would be, competes openly on multiples, Calcutta now home
long term, obliquely suspicious, right
Thanks for stopping by, novels include The Later & Home Comedian
(3@5) ELIMINATED & BOOSTING
Outlets possible throughout the day, at least institutions, arrived speaking

RETURNED GLARING AUDIBLE

In retrospect, early twenties problematic for tackling larger books

Audio remains transcendental

Decision problematic, 25% versed in modernity, traditionally

HANDED TISSUE & BLUBBERING

Terrible admission, in terms of romance, descriptively open

Messaging decision searching

Arranged (not by title, but publication date) openly discordant

DIFFERENT HOUR ADJUSTMENT

Early August, emblazoned with, (as, or) crinkling magnolias

Suddenly Hollow Respectively

Issued from small speaker, lopped off response, 36 still rumbling
The trimming you requested turned out well considering I’m new to such things. For instance, why do any of this by hand? If I used the lawn mower on the hedges then they would be lower in the first place. Ok sure, they would be really low, but think how much fuel we’ll save over the long run. Right I know, by hand and it wouldn’t use fuel, but you need to think more openly, even radically. Again, the entire grounds will have a much lower appearance, almost like a flat-top haircut. You know, like barbers used to use but instead of centimeters, think acres, basically like the entire grounds, but in a mannered flat shape. The watering instructions all made perfect sense considering the roses have been moved to a new area. Keep in mind, as groundskeeper, my laziness is of proportion that can modestly be described as epic. For instance, do you really expect me to water in such warm weather? Seems only logical that roses could lift a finger and turn on the water. Or how about this, the watering system could be activated by cell phone! You know, make a call and the system turns on. Of course I couldn’t do that though. Aside from being a lot to ask, you don’t pay me enough to afford a cell phone so naturally I couldn’t activate the system. I see, if you added me to the group plan, the phone for the roses would be cheaper.
