The trimming you've requested turned out well considering I'm new to such things. For instance, why do any of this by hand? If I used the lawn mower on the hedges then they would be lower in the first place. Ok sure, they would be really low, but think how much fuel we'll save over the long run. Right I know, by hand and it wouldn't use fuel, but you need to think more openly, even radically

Ok sure, they would be really low, but think how much fuel we'll save over the long run. *Right I know, by hand and it wouldn't use fuel, but you need to think more openly, even radically.* Again, the entire grounds will have a much lower appearance, almost like a flat-top haircut. You know, like barbers used to give but instead of centimeters, think acres, like the entire grounds, but in a mannered flat shape. *Ok, so you're essentially surrendering your job as grounds keeper in favor of this trimming fantasy you've dreamt up?* You're on acid right? I can't tell if I am.
