Maple Text Settings

11/14 PT. REGULAR ROMAN & ITALIC

Infect activities which ought to be purely creative. A man who has made some valuable discovery may be filled with jealousy of a rival discoverer. If one man has found a cure for *cancer and another has found a cure* for consumption, one of them may be delighted if the other man's discovery turns out a mistake, instead of instead of desiring knowledge

11/14 PT. MEDIUM ROMAN & ITALIC

Impulses the smallest. It is not one ideal for all men, but a separate ideal for each separate man, that has to be realized if possible. Every man has it in his being to develop into something good or bad: there is a best possible for him, and a worst possible. *His circumstances will determine whether his capacities for good are*

11/14 PT. BOLD ROMAN & ITALIC

To begin with, we do not want all men to be alike. *We do not want to lay down a set pattern or type to which men of all sorts are to be made by some means or another to approximate. This is the ideal of the impatient administrator. A bad teacher will aim at imposing his opinion, and turning out a set of pupils all of whom will*

11/14 PT. BLACK ROMAN & ITALIC

Political ideals must be based upon ideals for the individual life. The aim of politics should be to make the lives of individuals as good as possible. *There is nothing for the politician to consider outside and or above the various men, women, and children who compose the world. The new problem of politics is*

9/11 PT. REGULAR

Shortly after moving to California the idea was to get work by building houses for the new post war environment. Ironically enough, he openly detested the climate, environment and the clientele. None the less, he took advantage of the new spirit that was flowering and set to work on several structures that went mostly unnoticed. Forget wildfires and earthquakes, the sweeping ceilings blend shamelessly into the hills and refract sparkling patterns of light at all waking hours. Spending more then a few days is essential to understanding the experience of the structure and site as each one is more special than the next. Today, the owner has restored the hexagonal series of beams and curtain walls of glass. The engineering is central to the form and is actually the central theme to most of his structures.
